

REMARKS

In response to the restriction requirement mailed March 24, 2010, Applicants hereby elect Group II, drawn to a microarray device, corresponding to claims 2-9. See the Office Action at 2. Claims 11-19 are withdrawn, while claims 1 and 10 are canceled. Claim 2 has been amended to incorporate the subject matter of canceled claim 1. Claim 17 has been amended to depend from claim 2.

The Examiner has further required an election of species for Group II. Office Action at 5-6. Specifically, "applicant should further specify and elect a single combination of oligonucleotides selected from the list presented in claim 1." In this regard, Applicants elect the following combination of oligonucleotides selected from the list presented in claim 1: SEQ ID NOS 72-73, 76-81, 84-91 and 5-63. It is noted that this combination is presented in Fig. 18 and discussed in the Example. See the specification at 42-46. For clarity, each of the oligonucleotides belonging to the elected combination is listed below:
